

## RUGGED TECHNOLOGY - COMPACT FOOTPRINT

Ruggedness, reliability, a wide range of applications and compact portability are all features of the PE 100.

Its range of applications is virtually unlimited. Available in three drive types with petrol engine, three-phase or single-phase AC motor, it is ideal for many uses, such as a breathing air compressor for diving groups or fire fighters or for rapid filling of cartridges for sports shooting or paintball cylinders.

The PE 100-TW sports shooting version has a non-bleed filling valve including adapter for filling cartridges and was designed specifically for sports shooting applications.

In the version with petrol engine, the PE 100 can be operated without an external power source in even the most remote locations. In the single-phase AC motor version, it can be powered from a household power supply.
